

ALWAYS READY FOR ADVENTURE

Sometimes you feel like picking a corner of the map and exploring and sometimes, you need a quick ride to the shops.

For a compact bike that can handle real adventures and all the commutes in between, the Honda NX500 is the ride for you. The 471cc twin-cylinder engine offers easy-to-access power and plenty of torque. Now 3kg lighter than its predecessor, this bike shines on backroads and city streets alike. Together with rugged styling, long-travel suspension, a tall windscreen and more, it's ready for adventure.

Starter	Electric
Fuel System	Fuel injection
Transmission	6-speed
Drive	Chain
Fuel Capacity (L)	17.5

Dimensions

Overall Length (mm)	2,155
Overall Width (mm)	830
Overall Height (mm)	1,410 low screen (1,445 high screen)
Wheelbase (mm)	1,445
Seat Height (mm)	830
Ground Clearance (mm)	180
Kerb Weight (kg)	196
Tyres (Front)	110/80-19
Tyres (Rear)	160/60-17

Chassis

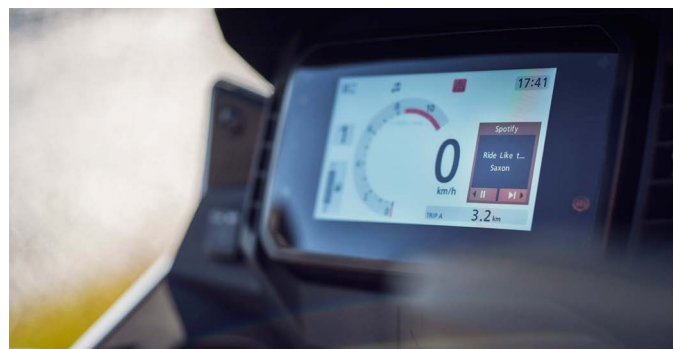

Front Suspension Type	41 mm Telescopic fork
Front Wheel Travel (mm)	135
Front Adjustability	-
Rear Suspension Type	Single shock
Rear Wheel Travel (mm)	135
Rear Adjustability	Preload
Brakes (Front)	2x 296mm discs, ABS
Brakes (Rear)	1x 240mm disc, ABS

Warranty

24-month

Performance and Handling

The compact 471cc parallel-twin engine provides balanced midrange power and torque. PGM-FI keeps the fuel mix optimised for every condition, delivering precise throttle response when you need it most.

Advanced Connectivity

The intuitive 5-inch full-colour TFT screen provides clear, convenient access to ride information. Backlit and optically bonded to reduce glare, it's easy to read in all conditions. Using the Honda RoadSync^{D5} app, riders can make calls and navigate seamlessly by connecting the motorcycle to their smartphone via Bluetooth[®].

Adventure Ready

Lighter cast wheels work with revised spring rates and damping settings to boost handling, letting you take on any adventure with ease. The redesigned fairing and screen channel airflow smoothly around you, providing comfort and wind protection at various speeds.

Added Safety

Equipped with front and rear disc brakes and standard Anti-lock Braking System^{D9} (ABS), the NX500 delivers smooth, controlled stops even in challenging conditions. Now with ESS (Emergency Stop Signal) to further enhance rider safety.

Overseas model shown. D5 In order to use Honda RoadSync a connection is required with a Bluetooth[®] headset (sold separately) see owner's manual for Bluetooth headset requirements. Wireless Headsets can only be used in conjunction with the road rules of your state or territory. Please refrain from operating a smartphone while riding. A dedicated application needs to be installed to a smartphone to use the Honda RoadSync. Minimum iOS requirement 15.0 or later. D6 Bluetooth[®] is a trademark of the US Bluetooth SIG, Inc. D9 The ABS is an auxiliary system to assist the rider for braking operations. Therefore, the same as for vehicles without ABS, safe riding practices are required, as even vehicles with ABS cannot handle unreasonable operations. Please refrain from sudden braking while riding.
