Servicing with Honda.

Servicing your car at a Honda Service Centre is a great way to keep things running smoothly.

A large part of that has to do with Honda Genuine parts and products. Backed by our warranty, Honda Genuine is all we use. That's because they're engineered with the same specifications and attention to detail as our vehicles and work seamlessly with your Honda. For safety, reliability and resale value, accept no substitute.

At a Honda Service Centre, your Honda will be looked after by a trained technician. With access to exclusive Honda training modules, state-of-the-art diagnostic tools and more, nobody is better equipped to care for your Honda. Plus, if you have an errand to run while your car's getting serviced, we even have a service loan car you can use. Because we know how important it is to stay on the move.

So, the question is, why would you go anywhere else?

Designed to keep your Honda safe and reliable on the road, a standard scheduled service covers all the maintenance items and checks, depending on your model's service schedule. If there's extra work that needs to be done, we'll always check with you to confirm the extra cost and get your approval before doing anything.
