Top reasons the

# PRELUDE HYBRID

Really stands out

### S+ Shift[13] & Drive Modes

Paddle shifters engage a virtual 8-speed transmission and Active Sound Control pipes in an aggressive simulated engine note, syncing with every gear change. Comfort gains extra ride comfort and torque feel, GT sharpens throttle response and sound, and Sport turns everything up.

### Dual-Function Paddle Shifters

One set of paddles, two jobs. In Comfort, GT, Sport & Individual modes, they control 7-stage deceleration with a Coasting Mode for smoother, more efficient driving. Switch to S+ Shift and the same paddles allow you to manually take charge of each gear change.

### Cargo Area Space

Don't let the coupe shape fool you. With the rear seats up there's 264 litres – room for a large and a medium suitcase. Fold them down and that grows to 663 litres to the glass, or 760 litres to the roof, easily swallowing two sets of golf clubs.

### Adaptive Damper System

Electronically controlled dampers adjust ride and handling in real time. Comfort Mode opens the valving for a smoother ride over bumps, GT Mode firms things up for a more controlled feel, and Sport Mode tightens further for precise cornering – while Individual Mode lets you dial in the damper setting independently of your other drive mode preferences.

### Gen 2 Honda Connect[8] & Google Built-In[2]

Stay connected without ever pairing a phone. Google handles voice control for climate and seat heating, Google Maps and apps like Spotify and YouTube Music come built in, and the same smart-home ecosystem you use at home works right from the car.

[13] S+ Shift is unavailable when Adaptive Cruise Control (ACC) is in use.

[8] Some Honda Connect app features are only available if your vehicle is linked to your Honda Connect account and connected services is activated. Remote vehicle features vary by model and not all vehicles will have all features.

[2] Google, Android, Google Play, Google Maps and other marks are trademarks of Google LLC. Some Google Built-In features require an internet connection, this can be performed through the vehicle with an active Honda Connect subscription. For USB connections: Compatible Android.
