

# 3-STEP PROCESS TO ENSURE YOU GET THE RIGHT GENERATOR

# WHAT DO YOU WANT TO POWER?

Whether you have a small caravan or something a little more substantial, knowing your appliance ratings is going to help you in the long run. Write a list of all the appliances you want to have running at one time. Then find out the ratings of each appliance. You will need to take into account start-up power.

# 2. FACTOR IN START-UP POWER

Start-up power is simply the power an appliance needs to begin operating. Appliances that run an electric motor (air conditioners and water pumps) can require 3 times the operating load but this is usually only needed for a very short period. Check the compliance plate on the unit for specifications.

# PICK THE GENERATOR TO SUIT YOUR NEEDS

If you look at your list, there's a high chance you're not going to need everything running at once. A kettle draws a lot of power but only runs for a minute or so. It won't hurt to turn off some appliances while the kettle boils. Just make sure you have the essentials covered. Let's say your total running power requirement is 1500W, with a start-up power requirement of 1900W, then the Honda EU22i Generator will be the right fit.

If you are unsure, consult your Authorised Honda Dealer.

Honda is a brand renowned for quality and reliability, and when it comes to generators, Honda is the top choice for back up power solutions. No matter what you need to power, you can be confident Honda has the right generator for you.

At the heart of every Honda Generator lies our Honda GX commercial grade engine. These 4-Stroke engines are recognised as the industry leader in providing reliable, quiet and fuel-efficient power. In fact, they run about 30% more fuel efficiently than comparable side-valve engines.

Features include overhead valves for smooth, consistent power and cast iron cylinder sleeves (excl. EU10i) for commercial grade quality and durability. Many offer a dual element air cleaner for increased engine life. All Honda Generators are equipped with Oil Alert <sup>®</sup>, which protects the engine by shutting it down if the oil reaches a low level.

# **RELIABLE TECHNOLOGY**

# **VOLTAGE REGULATION**

Voltage regulation controls the power output of the generator. Consistent power is extremely important, as fluctuations in power can cause equipment to shut down or even damage the appliance.

The following information will help you understand the difference in technologies between each of the models found in this brochure.

**INVERTER** Inverters produce the cleanest power of all. These units are ideal for sensitive electronics. such as computers. Inverter generators offer a number of other benefits, including less noise, lower weight and greater fuel efficiency when compared with traditional models. Honda revolutionised the use of inverter technology in portable generators with our Super-Quiet EU series. **Brownout** – a brownout is a large drop in voltage in an electrical power supply. **Blackout** – a blackout is a complete loss of voltage in an electrical power supply. ° With Eco-Throttle switched on when rated at ¼ output. Usage applications are recommendations only. \* Requires bluetooth compatible device and use of the Honda "My Generator" smartphone application.

EU30is	3000			
EU32i	3200			
EU70is	7000			

If your caravan has an air conditioner, then you need to make sure your generator can handle the power required for different situations. If you are in warmer climates trying to make your caravan cooler, then your air conditioning system is going to work harder, and therefore require more watts. Check with your manufacturer what the maximum operating load that the air conditioner will require and pick a generator that will suit.

### EU32i EU32iU 4-STROKE

- · Award winning for power and portability
- Bluetooth to keep you connected via a clever smartphone app
- · Lightest and most compact in its class (26.5kg)
- · Greater fuel efficiency via Built-in Eco-Throttle

Max Output Technology

Warrantv\*

8.5 Operating Hours<sup>o</sup>

Bluetooth<sup>+</sup>

Premium Intelligence Design with a unique appearance and cleverly designed interface to provide a simplified control panel that is easy to use.

2 EASY AND CONVENIENT OPERATION

The first generator of its kind to include built in Fuel Injection to optimise fuel use and simplify starting

BLUETOOTH CONNECTIVITY

Bluetooth allows smart device linkage to enable remote operation and monitoring.

4 3200 WATTS OF POWER

Maximum output of 3200W/240-volt AC that can satisfy multiple loads, including RV air conditioners and microwave ovens

**HONDA** 

<sup>\* 4</sup> Year warranty applies to domestic use and does not apply to engines sold as separate units. ° With Eco-Throttle switched on when rated at ¼ output. Usage applications are recommendations only. \* Requires bluetooth compatible device and use of the Honda "My Generator" smartphone application.

#### OPERATING NOISE LEVEL CALCULATION

<sup>\*\*</sup> LwA refers to sound power level and is measured at rated load, which is standardised by EU noise regulation. It is measured from 6 directions by a microphone placed 4 metres from the product in a closed anechoic room. This room is not affected by environmental conditions.

<sup>\* 4</sup> Year warranty applies to domestic use and does not apply to engines sold as separate units.

<sup>°</sup> With Eco-Throttle switched on when rated at ¼ output. Usage applications are recommendations only.

### EU70is

#### **ELECTRIC START GENERATOR** EU70iSUT4 4-STROKE

- · Greater fuel efficiency via Built-in Eco-Throttle
- · Better than commercial quality electricity thanks to icrocomputer controlled Sine-Wave inverter
- Engine protected by low oil alert system
- · Easy storage and transport with a fold down handle and large diameter wheels
- · Hassle-free Push Button Electric Start

Warrantv\*

Max Output Technology

Inverter

16 Operating Hours<sup>o</sup>

Commercial Quality

### FUEL INJECTION

The advanced Electronic Fuel Injection System allows the unit to run up to 18 hours° continuously depending on load capacity, while minimising the need for maintenance.

## I-MONITOR™

Provides information on hours of operation, wattage and engine speed, as well as diagnostics for convenient dealer servicing.

## PUSH BUTTON START

Hassle-free Push Button Electric Start makes starting the unit a simple push of a button.

# OIL ALERT

Peace of mind with Honda is an Oil Alert system that shuts off the engine when low oil is detected.

### ECO-THROTTLE

Automatically adjusts the engine speed, increasing fuel efficiency and performance.

### OULTRA QUIET MUFFLER

Triple chamber low tone muffler ensures whisper quiet operation.

#### **OPTIONAL ACCESSORIES**

Lifting kit: 06531Z11E00ZA Wired remote control cable: 10m - 32380Z37800ZA 30m - 32380Z37820ZA

<sup>\* 4</sup> Year warranty applies to domestic use and does not apply to engines sold as separate units. 
Output Eco-Throttle switched on when rated at 1/4 output. Usage applications are recommendations only.

# **GENERATOR ACCESSORIES**

#### **GENERATOR MAT**

Designed to fit the EU10i, EU22i and EU32i. Protects your generator from sucking up dust or sand while providing a stable non-slip platform.

Part no: LO8GNMAT01

# HONDA SECURITY CABLE

1500 x 10 mm diameter cable, providing increasing cutting resistance with a protective polyurethane coat. This security cable is a great way of protecting your investment.

Part no: I 210820

### PARALLEL LINK UP KIT

Link up two generators for double the power output. Only the same models can be linked.

(MAX: 15-amp output)

Part no: 32360ZC3000L (EU10i, EU22i, EU30iS, EU32i)

# GENERATOR SERVICE KIT

Genuine Honda Service Kit for your Honda.

Part no: 06211KIT002 (EU10i) Part no: 06211KIT003 (EU22i)

# PROTECTIVE COVERS

Protect your investment.

Part no: L08GC001R10 (EU10i)
Part no: L08GC001R20 (EU22i)
Part no: L08GC001R30 (EU30is)
Part no: L08GC003R32 (EU32i)

# Honda Power Products Service and Support

Get service information for your power products, setup, operation, maintenance and more. Best of all, it's absolutely free.

#### ABSOLUTE POWER

The flagship for performance and fuel economy, the high horsepower range incorporates Honda's revolutionary Boosted Low Speed Torque (BLAST™) technology and Lean Burn Control (ECOmo) to deliver powerful acceleration together with outstanding fuel economy during cruising.

#### LEGENDARY F1 AND MOTOR-RACING PEDIGREE

Innovations such as the VTEC™ system (optimising power and efficiency at all engine speeds) were borne out of Honda F1 technology. A challenging spirit and a never-ending passion for racing fuels the development of technologies found in every Honda product.

#### INNOVATION SIDE-BY-SIDE VEHICLE TECHNOLOGY

Developed to suit the unique farming conditions in Australia, Honda is leading the way in Side-by-Side vehicle technology. Creating high demand for powerful and refined engineering that can't be matched.

# POWERED BY WORLD CLASS RESEARCH & DEVELOPMENT

Global state-of-the-art R&D facilities are dedicated to researching, designing and developing cutting-edge products. Honda continues to challenge the way the world thinks by looking to the future through technology and innovation.

#### ONLY GENUINE PARTS AND ACCESSORIES

Every engine has been manufactured to uphold Honda's strict quality standards. So the purchase of a Honda is an investment in a product that's made to last. This ensures that when it comes to repairs or replacement, genuine parts will keep it functioning at the optimum performance level that's expected.

#### A DEDICATED NATION-WIDE DEALER NETWORK

All of our dealers share the same level of commitment to the Honda brand as they do their relationship with customers. When it comes to sales, service and parts, you can always rely on a Honda Power Equipment specialist for knowledge and advice.

# AUTHORISED HONDA DEALERS

OUR NATIONAL DEALER NETWORK PROVIDES THE BEST ADVICE AND AFTERSALES SERVICE.

# SALES

Dealers participate in Honda's factory training, covering: sales, products and the exclusive Honda Certified Technician (HCT) training program. You can trust their valuable advice and experience to help you choose the product that's just right for you and your needs.

### SERVICE

The technicians at our authorised dealers perform a full pre-delivery inspection (PDI) on every Honda machine. They also offer the highest levels of aftersales service to keep your product in peak condition.

# ද<sup>ව</sup> EXPERTISE

Our Authorised Dealers are true experts in their field, with years of experience under their belt.

Disclaimer: All prices listed include GST and are recommended retail prices only, there is no obligation to comply with the recommendation. Not all products listed in the brochure are available from every Authorised Power Equipment Dealership. Honda MPE reserves the right to change specifications and price at any time. \*4 Year warranty applies to domestic use and does not apply to engines sold as separate units. For full Terms and Conditions, go to: www.powerequipment.honda.com.au/owners/warranty or visit an authorised Honda Power Equipment Dealership.
