

TAKE THE SHORTCUT HOME

Stylish, practical, and fuel-efficient, the Dio is built for city rides and everyday adventures.

With its sleek, attractive body design and comfortable seating for two, the Honda NSC110 Dio is perfect for your daily commute, quick trips to the shops, or leisurely days at the beach. Lightweight and responsive, it delivers seamless acceleration with just a twist. Powered by an efficient and reliable 109cc PGM-FI four-stroke engine, the Dio is designed to minimise its impact on the environment and your wallet. The Programmed Fuel Injection system ensures precise fuel delivery, while the idle-stop feature reduces fuel consumption and noise during stops, like at intersections.

Larger-than-usual, wide-diameter wheels provide confident handling, while Honda's unique Combined Braking System (CBS) enhances stopping performance. A generous under-seat storage compartment, electric start, and large 4.9-litre fuel tank further boost the NSC110 Dio's practicality. Night riding is made easy with its two-tiered headlight system. The Dio is even learner-approved!

24-month	

Economical Commuter

Powered by a fuel-efficient and reliable 109cc 4-stroke engine with PGM-FI fuel injection and electric start. The NSC110 Dio also features an idle start-stop system that can be switched off for added flexibility.

Practical Storage

18-litre under-seat storage accommodates all your work or study essentials. Spacious enough for shopping, a waterproof oversuit, security locks, or a full-face helmet, the thoughtfully designed compartment is both practical and convenient.

Comfort

Engineered for both rider and passenger, the ergonomically sculpted one-piece seat is set at a 760mm height, providing ample legroom and easy handling. Combined with the stable and highly manoeuvrable chassis, the handlebars are precisely positioned to offer confident control.

Ride With Confidence

Honda's Combined Braking System (CBS) links the front and rear brakes, ensuring swift and stable braking in all conditions.
